ATTACHMENT A
PhD Programme in Civil, Mechanical, and Bio-Mechanical Engineering

Curricula
- Civil Engineering
- Mechanical Engineering
- Environments, active lifestyles and health

Coordinator: Professor Elio Sacco
Tel. 0776/ 2993659
e-mail sacco@unicas.it

Available positions: 6
Scholarships: 5
Positions without scholarship 1

Length: 3 years

Admission procedures (all qualifications and publications must be submitted online)
Admission is based on the assessment of the candidate’s competence and on an oral examination. The assessment of competence is formulated by the Examination Committee in analytical form on the basis of:
- Curriculum vitae;
- Publications;
- Other scientific qualifications;
- Research Project (to be prepared as requested in the form available on the University website);
- Recommendation letters (in number of 2).

The oral examination evaluates the candidate’s penchant to carry out research in the field of reference of the PhD Programme and the candidate’s knowledge of the English language. On request of the candidate, the oral examination can also be a computer-based distance examination. Motivation may include the residence of the candidate in a foreign country. The method chosen by the candidate must be specified in the application form.

The oral exam determines the ranking of the candidate in the general merit list.

The oral exam can be in English upon explicit request of the candidate in the application form. In their application form, candidates must necessarily provide an email address which will be used by the University to inform the candidate about the results of his/her assessment of competence and to receive instructions on how to take their exam for those who have opted for a computer-based distance oral examination.

Documentation to submit online, under penalty of exclusion from admission
Under penalty of exclusion from admission candidates must submit the following documentation online:
- curriculum vitae (to be prepared as requested in Attachment C);
- academic transcript including a list of the exams and grades, the final grade of graduation of both the first and second level degrees, or the Vecchio Ordinamento degree, or the equivalent university degrees for foreign students;
- research plan (to be prepared as requested in Attachment D). Please, note that this plan is not binding on the researches that will be effectively developed during the PhD program;
- recommendation letters (in number of 2).

Assessment of competence – Results date
The outcome of the pre-selection and the list of candidates admitted to the interview will be published on the University website on September 14, 2015.

Location of the oral examination
Area didattica of Engineering - Sala del Consiglio – Via G. Di Biasio, 43 – Cassino

Date of the oral examination
21 September 2015 at 10:00 a.m. (Italian time)
## PhD Programme in Electrical and Information Engineering

### Curricula
- Methods and technologies for acquiring, processing and transmitting information
- Design, management and control of components and systems for the conversion and transport of large electric power and industrial automation
- Systems, methods, techniques and devices for movement and health

### Coordinator:
Professor Antonello Tamburrino  
Tel. 0776/2993675 - e-mail tamburrino@unicas.it

### Available positions:
6

### Scholarships:
5

### Positions without scholarship:
1

### Length:
3 years

### Admission procedures (all qualifications and publications must be submitted online)
Admission is based on two examinations: a preliminary selection based on the assessment of the candidate’s competence and on an oral examination. The Examination Committee can award a score of up to 60 points for each exam. To be admitted to the oral exam, candidates must have passed the preliminary selection with a score no lower than 40/60. The score for the preliminary selection exam is formulated by the Examination Committee in analytical form on the basis of:
- curriculum vitae;
- scientific qualifications (all qualifications that might be valuable for the assessment of the candidate and must mandatorily include an official academic transcript with a list of the university exams and grades, the final grade of graduation of both the first and second level degrees, or the Vecchio Ordinamento degree, or the equivalent university degrees for foreign students);
- research project
- recommendation letters (no less than 2 and no more than 5).

The oral examination evaluates the candidate’s predisposition for carrying out research in the field of reference of the PhD Programme and the candidate’s knowledge of the English language. On request of the candidate, the oral examination can also be a computer-based distance examination. Motivation may include the residence of the candidate in a foreign country. The method chosen by the candidate must be specified in the application form.

The oral exam can be in English upon explicit request of the candidate in the application form. In their application form, candidates must necessarily provide an email address which will be used by the University to inform the candidate about the results of his/her assessment of competence and to receive instructions on how to take their exam for those who have opted for a computer-based distance oral examination.

The sum of the scores awarded to the candidates for each of the two exams determines the ranking of the candidate in the general merit list.

### Documentation to submit online, under penalty of exclusion from admission
**Under penalty of exclusion from admission** candidates must submit the following documentation online:
- curriculum vitae (to be prepared as requested in Attachment C);
- academic transcript including a list of the exams and grades, the final grade of graduation of both the first and second level degrees, or the Vecchio Ordinamento degree, or the equivalent university degrees for foreign students;
- research plan (to be prepared as requested in Attachment D). Please, note that this plan is not binding on the researches that will be effectively developed during the PhD program;
- recommendation letters (no less than 2 and no more than 5).

### Assessment of competence – Results date
The outcome of the pre-selection and the list of candidates admitted to the interview will be published on the University website on **September 14, 2015**.

### Location of the oral examination
Area didattica of Engineering - Aula Magna "Luigi Papa" – Via G. Di Biasio, 43 - Cassino

### Date of the oral examination
17 September 2015 at 10:00 a.m. (Italian time)
## PhD Programme in Institutions, Markets and Behavioural Science

| Curricula:                          | - Economy and Markets  
|                                    | - Institutions and Companies  
|                                    | - Behavioural Sciences  
| Coordinator:                       | Professor Rosella Tomassoni  
|                                    | Tel. 0776/2993823  
|                                    | e-mail: r.tomassoni@let.unicas.it  
| Available positions:               | 10  
| Scholarships:                      | 8  
| Positions without scholarship      | 2  
| Length:                            | 3 years  

### Admission Procedures:
Admission is based on a written examination (candidates must write about a topic selected among those proposed by the Examination Committee —no less than three topics for each of the different curricula) and on an oral examination that evaluates the candidate’s competence, skills and penchant toward research.
A good knowledge of at least one of the following languages is requested: English, German, French, Spanish.
The oral and written examinations can be in English upon explicit request of the candidate in the application form.

| Location of the written and oral examinations: | Department of Economics and Law – Via S. Angelo – Loc. Folcara – Cassino  
| Date of the written examination:               | 21 September 2015 at 10:00 a.m.  
| Results date of the written examination:       | The results of the written examination and the list of the candidates admitted to the oral examination will be published on the University website by September 22, 2015  
| Date of the oral examination:                  | 24 September 2015 at 10:00 a.m.
