

# Nuove tecnologie della ricerca bibliografica i Research Assistant

Presented by: Manuela Scaramuzzino

*Una vita senza ricerca non  
è una vita degna...*

**Socrate**

# Panoramica

- Introduzione
- Piattaforme OA
- Applicativi ad uso accademico
- Consapevolezza d'uso
- Esercitazioni
- Conclusioni

# Introduzione

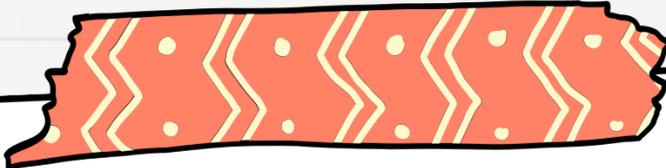

## I Bibliotecari

- I Bibliotecari contrastano la disinformazione FACILITANDO l'accesso a fonti attendibili, a strumenti di verifica e strategie per il *fact-checking*

## Come...

- Da un bibliotecaria accademica (o d'Ateneo) propongo libri, riviste, paper, rapporti basati su dati aperti, l'accesso alle pubblicazioni scientifiche, con attenzione ai contenuti ad accesso aperto. Sostengo i principi FAIR (*Findable, Accessible, Interoperable, Reusable*) dei dati aperti. Utilizzo AI generativa per proporre soluzioni a studi e ricerche accademiche.

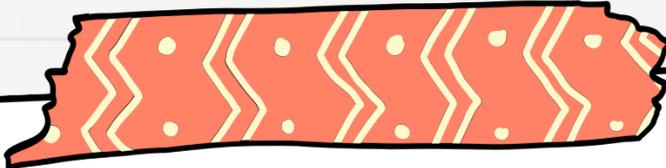

# Introduzione

## Come...

- Supporto docenti e studenti a comprendere le leggi sul diritto d'autore e le questioni relative al copyright, favorendo l'uso corretto delle licenze Creative Commons e il rispetto delle norme relative alla proprietà intellettuale.
- Ho sempre in testa i principi dell'integrità della ricerca, tra cui la corretta gestione delle citazioni, diffondendo l'evitamento del plagio e l'importanza di pubblicare risultati di ricerca verificati e trasparenti. Fornisco risposte ponderate e ben studiate che incoraggino il pensiero critico e la valutazione delle fonti.
- Quando suggerisco risorse o informazioni, do priorità a quelle che sono ampiamente riconosciute per la loro accuratezza e affidabilità.

# Introduzione

## Come...

- Agevolò l'accesso alla scienza aperta da parte di ricercatori, studenti, cittadini, docenti. **Contrasto** la propaganda politica o commerciale, spingendo i cittadini/utenti a sviluppare senso critico. Applico le indicazioni dell'*International Federation of Library Associations and Institutions (IFLA)* per *media literacy e information literacy*.
- Suggesto un uso mirato per applicativi aperti come EUR Lex, PubMed Central, OpenAlex, Semantic Scholar, Dimensions A.I. Digital Science, Bielefeld Academic Search Engine (BASE) Search, Connecting Repositories, Open Knowledge Maps, Elicit, Arxiv, Zenodo, directory of open access books (DOAB), directory of open access journals (DOAJ), Public Library of Science (PLOS).

DOAJ: Directory Open Access Journal

The screenshot shows the DOAJ website interface. At the top, there is a navigation bar with the DOAJ logo (three red squares) and the text 'DOAJ OPEN GLOBAL TRUSTED'. To the right of the logo are links for 'SUPPORT', 'APPLY', and 'SEARCH'. Below the navigation bar, there are links for 'SEARCH', 'DOCUMENTATION', and 'ABOUT'. The main content area features the text 'DIRECTORY OF OPEN ACCESS JOURNALS' and 'Find open access journals & articles.' Below this, there are radio buttons for 'Journals' (selected) and 'Articles'. A search bar is present with a dropdown menu set to 'In all fields' and a yellow 'SEARCH' button. At the bottom, there are five statistics: 89 LANGUAGES, 138 COUNTRIES REPRESENTED, 13,701 JOURNALS WITHOUT FEES, 21,514 JOURNALS, and 11,107,660 ARTICLE RECORDS.

### Policing Higher Education

The Antidemocratic Attack on Scholars and Why It Matters

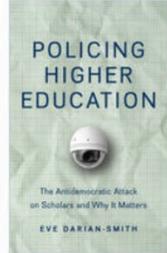

On the essential role of higher education and academic freedom Higher education is facing an existential crisis. Students and cameras and facial recognition software. Police zip-tie and protests. As universities across the United States become a warfare, Policing Higher Education contextualizes these skirmishes within a larger framework. From the contentious debates surrounding free speech to the denial of tenure for outspoken faculty, Eve Darian-Smith explains how higher education has become a battleground. Darian-Smith highlights global trends of rising authoritarianism and declining academic freedom in the United States as part of a larger pattern seen in democratic Brazil, Hungary, Germany, India, and the Philippines. This book contextualizes educational conflicts not merely as culture wars but as intense struggles over economic, political, and social power. Drawing from extensive research, Darian-Smith humanizes the impacts of these attacks on scholars through poignant stories of persecution and resilience. With a critical eye on the structural drivers of antidemocracy, this book pushes for new solutions to about academic freedom that transcend national borders. It emphasizes the role of universities in fostering social responsibility and combating authoritarianism.

Series: Elements in Corpus Linguistics

### Social Group Representation in a Diachronic News Corpus

Published online by Cambridge University Press: 06 February 2025

Irene Elmerot

**Summary**

Equality is a global factor of prosperity in democratic societies. In this Element, thirty years of newspapers and magazines form the basis of an intersectional study on how different social actors are described in Czechia. A bird's eye perspective points to the news being very white male-oriented, but when scrutinising further, some results differ from previous studies, giving insights on linguistic othering and stratification that may be a threat to equality. The methodology can be used for most languages with a sufficient amount of digitised, annotated and available texts. Since more and more text is being gathered to form datasets large enough to answer any question we might have, this Element helps uncover why we should be careful about which conclusions to draw if the words put into the data are not adapted to the relevant register and context. This title is also available as Open Access on Cambridge Core.

Description of search system (by system owner)  
EconStor is a publication server for scholarly economic literature, provided as a non-commercial public service by the ZBW. The full texts collected here (mostly working papers, but also journal articles, conference proceedings, etc.) are all freely accessible according to the principles of Open Access. Authors and editors can also submit papers to EconStor free of charge. EconStor is among the largest repositories in its discipline with 247,016 full-texts. More than 500 institutions use it for the digital dissemination of their publications in Open Access. EconStor is also an important input service for RePEc, where it is one of the most highly frequented archives. Moreover we also distribute our titles to search engines like Google, Google Scholar or BASE and to academic databases like

**Titel:** [Economics for Humanity: Integrating Well-being, Community, and Practical Philosophy](#)

**Autor:innen:** Okabe, Misuaki

**Erscheinungsjahr:** 2025

**Schriftenreihe/Nr.:** Routledge Frontiers of Political Economy

**Verlag:** Routledge, Oxford

**Zusammenfassung:** Economics is often referred to as "the queen of social sciences." This is because mainstream economics has been established as an elegant academic discipline by assuming mankind simply to be homo economicus—an image of human beings showing interest in only material fulfillment and acting solely in his interest. This book challenges this basic perception of human beings. By replacing it with a more realistic and multi-faceted human motive as supported by research in various academic disciplines, the book tries to provide a novel and more plausible picture of human society. Specifically, the book takes in such human aspects as pursuing wellbeing, forming human networks, and the realization of potential of ability. Thus, if we try to better understand human motives and the society, it becomes necessary to replace the conventional two-sector (market-government) social model with a more general and theoretically superior social model, the "three-sector model" consisting of market-government-nonprofit sectors. This book demonstrates the validity of this new view by utilizing basic principles of economic policy and social welfare analyses. Moreover, the book has introduced a newly developing practical philosophy in Japan over the last 50 years to achieve both individual wellbeing and better human society.

# Consapevolezza d'uso

The infographic is titled "RICONOSCERE LE FALSE NOTIZIE" (Recognizing False News) in a black banner with white text. It contains eight numbered tips, each with an icon and a brief explanation:

- 1. CONSIDERA LA FONTE** (Consider the source): Click on the source and investigate the site, its purpose, and contact info.
- 2. APPROFONDISCI** (Dig deeper): Titles can be exaggerated to attract clicks. What is the real story?
- 3. VERIFICA L'AUTORE** (Check the author): Do a quick search on the author. Is it plausible? Is it real?
- 4. FONTI A SUPPORTO?** (Supporting sources?): Click on those links. Does the information data really support the story?
- 5. VERIFICA LA DATA** (Check the date): Old news reposted are not necessarily relevant for current events.
- 6. E' UNO SCHERZO?** (Is it a joke?): If it's too outrageous, it might be satire. Do a search on the site and the author.
- 7. VERIFICA I TUOI PRECONCETTI** (Check your preconceptions): Evaluate if your beliefs influence your judgment.
- 8. CHIEDI AGLI ESPERTI** (Ask the experts): Ask a librarian or consult a site dedicated to fact-checking.

Traduzione: Matilde Fontanin

IFLA International Federation of Library Associations and Institutions

IFLA

**IFLA**  
<https://repository.ifla.org/items/c5dbfa34-7d00-47ac-8057-0183a5056438>  
A Project of The Annenberg Public Policy Center  
<https://www.factcheck.org/>

**RICORDATE:** il fact-checking non è solo uno strumento per giornalisti e ricercatori, ma una **pratica essenziale** per chiunque voglia orientarsi nell'oceano dell'informazione digitale. Utilizzare strumenti come Google Fact Check Explorer, Snopes e NewsGuard aiuta a distinguere i fatti dalle falsità e a ridurre la diffusione di notizie ingannevoli. Tuttavia, **nessun software può sostituire il pensiero critico**: verificare le fonti, confrontare più prospettive e diffondere solo informazioni attendibili sono una **responsabilità di tutti**. In un'epoca in cui la disinformazione può influenzare opinioni, decisioni e persino la democrazia, **il fact-checking è più che mai un dovere collettivo**.
