BOOST YOUR DEGREE WITH AN ADDITIONAL CERTIFICATE

If you are a student at one of the **9 EUT+ universities**, you can earn an **additional EU-recognised certificate in Innovation Management & Entrepreneurship**, alongside your regular degree.

The **EUT+ Innovation Management & Entrepreneurship Programme**, delivered through the **EUT+ Entrepreneurship School**, brings together entrepreneurship-related **modules, courses, workshops and activities** from all partner universities into one shared pathway.

By completing selected learning activities, you can **develop entrepreneurial skills and competencies and receive an official certificate** that strengthens your **CV**.

You can complete these modules:

- + **within your degree programme** (when they are integrated into your curriculum),
or
- + **independently through LUMINA**, choosing what fits your interests and goals.

This gives you full flexibility to build entrepreneurial, innovative, and business skills at **your own pace**.

WHY THESE CERTIFICATES MATTER FOR YOUR CV

Adding the **EUT+ Entrepreneurship School** certifications to your CV shows employers that you are:

- + **Proactive** — you take initiative to build your skills.
- + **Future-oriented** — trained in innovation, digital collaboration, and entrepreneurship.
- + **European-minded** — experienced in mobility and cross-university teamwork.
- + **Ready for responsibility** — able to manage projects from idea to implementation.

Employers value candidates who can **create, adapt, and lead**. These certificates prove you can do exactly that.

SKILLS YOU WILL DEVELOP

**Innovation
& Creativity**

**Entrepreneurial
Mindset**

**Teamwork
& Leadership**

**Business
& Digital
Skills**

**Cross-Cultural
Competence**

The School is built on the **EntreComp Framework** – the European standard for entrepreneurial skills. EntreComp defines **15 key competences** across three skill areas, progressing across eight levels from beginner to expert.

This means the competences you develop are **recognised across Europe**, easy to show to employers, and help you grow from beginner to more advanced levels step by step.

COURSE CATEGORIES

Modules from all universities are classified as **Fundamental** or **Advanced**, depending on the skills they help you develop:

FUNDAMENTAL COURSES

core entrepreneurial
skills

ADVANCED COURSES

deeper, specialised
skills

MOBILITY ACTIVITIES

BIPs, blended
mobility, short stays
(required for L1–L3)

CERTIFICATION PATHWAYS

As you complete modules and activities, you can work toward **four certification levels**. Choose your level and progress when you are ready; all certificates are **EU-recognised and portable**.

L1 – COURSE CERTIFICATE (3–6 ECTS)

Participation in at least
one BIP (mobility experience)

L2 – FUNDAMENTAL CERTIFICATE (10–24 ECTS)

4 Fundamental courses
+ one mobility experience

L3 – ADVANCED CERTIFICATE (24–35 ECTS)

4 Fundamental + 3 Advanced
courses + mobility experience

L4 – INCUBATION PROGRAMME

For students who want to develop
a prototype or real venture with
mentoring, pitch support and
hands-on guidance.

Turn your passion into a project!

Advance your skills. Advance your future!

WHO CAN JOIN?

The programme is open to **any student interested in entrepreneurship**, regardless of your schedule, location or ability to travel. You can participate in the way that works best for you:

Full-Time Traveler

For students who love mobility and want to experience different EUt+ universities.

- + Open to travel & exchange
- + Joins BIPs, bootcamps or short stays abroad
- + Gains strong international experience & networks

Part-Time Traveler

For students who want international exposure but have limited time due to studies, work or personal commitments.

- + Prefers short visits, hybrid or blended programmes
- + Can engage selectively while developing their idea
- + Builds networks across EUt+ with flexibility

@Home Traveler

For students who cannot travel but still want to participate actively.

- + Joins online activities, courses & mentoring
- + Works locally, collaborates digitally with EUt+ peers
- + Can develop ideas at home with international support potential

Different profiles, same opportunity to grow as an entrepreneur!

EUT+ STARTUP LAB

The **EUT+ Startup Lab** supports students who want to turn ideas into real solutions. It hosts the **EUT+ Incubation Programme (L4)** and provides access to **labs, prototyping spaces and innovation facilities** across EUT+ universities.

Whether you're starting with a fresh idea or developing an existing one, the Lab helps you move from:

concept → prototype → startup

with practical, hands-on guidance.

**INCUBATION
PROGRAMME
(L4 CERTIFICATE)**

For students ready to build, test and grow a venture through real entrepreneurial experience.

You receive:

- + Mentoring for individuals & teams
- + Prototype & product development support
- + Pitch training & investor readiness
- + Access to experts, labs & facilities across EUT+
- + Guidance on business model

Ideal for:

- + Students with a concrete idea or concept
- + Teams/ solopreneurs working on tech or social innovation
- + Early-stage founders seeking structure and support

What you gain:

- + L4 Incubation Certificate
- + A prototype and pitch-ready project
- + Portfolio/ validation materials for competitions or investors
- + Strong experience to boost your CV & LinkedIn

GET INVOLVED!

Students from any discipline are welcome — you don't need a business idea or experience to start. Explore courses that inspire you, connect with peers and mentors, and develop real entrepreneurial skills through hands-on activities across nine EU+ universities. Everything you complete can be added to your **CV**, showing employers what you've achieved.

Your entrepreneurial journey begins with one click — sign up on **LUMINA**, take your first course, attend an event, or try a mobility activity. The tools are here. The support is here. ***Your next move is yours.***

Learn. Build. Grow. And make it count on your CV.

QUICK START GUIDE

The EUt+ Entrepreneurship School is flexible — ***you choose what you learn, when you learn, and how fast you progress.***

STEP 1

Create your LUMINA account

1. Go to eis-tech.eu/lumina/
2. Register using your university email.

REGISTER HERE

STEP 2

Check your dashboard – LUMINA tracks everything for you

When you log in, you will automatically see:

1. Your current level (L1, L2 or L3).
2. What you need to complete next & the progress bar.
3. Your enrolled and pending courses.

STEP 3

Browse courses

Click **Browse All Courses** to explore modules shared across all EUt+ universities. Courses are labelled as: **Mobility Activities, Fundamental, Advanced, or EUt+ Incubation program.**

STEP 4

Enrol & learn

Choose a course that interests you and start. To complete **L1, L2 or L3**, you must take **at least one mobility-embedded course**. Your dashboard reminds you, and progress is recorded automatically.

STEP 5

Earn your certificate

When you meet the requirements, you receive a Europass Digital Certificate in EUt+ Innovation Management and Entrepreneurship, recognised across all 9 EUt+ universities.
