

Un Treno di Desideri

Strumenti e Azioni per lo Sviluppo Sostenibile

19 Maggio 2026

GOAL

Lezione aperta

Climate change impacts human health by triggering epigenetic modifications and gut microbiota dysbiosis through heatwaves, pollutants, and nutritional shifts. Rising temperatures and pollution induce DNA methylation and histone modifications (epigenetics), weakening immunity and increasing chronic, respiratory, and cardiovascular disease susceptibility.

Discussant: Prof. Francesco Misiti, Dr. Antonino Lavenia

Ore 11.00

Università degli Studi Cassino e del Lazio Meridionale, Campus Folcara - Aula B.01.09
